

The makeover of the church!

Saint-Etienne Métropole, owner of the Saint-Pierre church, started the renovation works of the exterior façades in January 2020.

The works will last 4 months for a cost of €330 328 (€73 828 financed by the Direction Régionale des Affaires Culturelles – DRAC). They are supervised by the DRAC and a heritage architect, in order to respect the characteristics of this listed historical monument.

The church is accessible to visitors during the works.
